

Professional OnCall

... Answering service with high-tech dependability.

With only one phone number, Hello Phoenix will call your team of professionals until a team member answers. If there is no answer, the system will then send a page to the designated back-up person.

Professional OnCall is perfect for doctors or other healthcare professionals. You will no longer depend on an answering service that may not treat your customers or patients with the courtesy and care they need. You will also have no more problems with lost or outdated schedules.

Professional OnCall™

- Never miss another page
- Decrease your response time on emergencies
- Replaces costly, unreliable answering services
- Integrates with your existing pager or cell phone

Client/patient calls the Hello Phoenix number for the OnCall Professional

Hello Phoenix number

Hello Phoenix dials the first person scheduled to be on call. If no answer, the system calls each backup person on call until someone answers.

If no one answers, Hello Phoenix will then send a page to the designated back-up.
